

EasyLINK

4 channel handheld remote control, battery powered

The Wireless Radio Frequency Controlled AC Triac Dimmer is optimised for mains dimming of lamps and mains dimmable luminaires. The dimmer is not suitable for DALI, 1-10V, PUSH or other indirect non-mains dimming controls. The dimmer module is controlled wirelessly by a range of remote control devices. Each remote control device can switch and dim however many dimmer modules are within range of the radio signal. The remote controls are available as fixed mains powered or portable battery powered. Single or four zone remote controls are available. The four zone controls can operate up to four groups of dimmer modules independently. Each dimmer module can be paired with up to eight different remote-control devices.
