

## Pico-i

### Microwave sensor for Pico-i

Kosnic's Pico-i Integrated LED Bulkhead comes with built-in DoB (driver-on-board) LED modules. The bulkhead is IP44 rated when ceiling mounted and has a simple edge-less vacuum formed polycarbonate cover with high LOR. The bulkhead also contains a pre-fitted emergency LED strip that allows it to quickly and easily be converted for emergency use via the optional emergency module. Alternatively a microwave sensor can be added. Altogether the bulkhead offers a simple and elegant solution to lighting in corridors, staircases, thoroughfares and other areas where a practical lighting solution is required.
