

Volta II

Volta II 50W, 5ft, 4000K Non-corrosive batten with integrated LED

The Kosnic Volta II LED non-corrosive battens have a full polycarbonate body and utilise high performance LEDs to offer outstanding lumen efficiency. The battens are designed for a 230V supply but can also work on a 110V power supply, so replacement yellow end-caps are included, and they have terminals at each end for interlinking via the pass-through wiring.

Specification

Voltage	110-240Vac 50-60Hz
Current (mA)	229
Rated Power (W)	50
Nominal Lifetime (h)	40000
Power Factor	0.95
Weight (kg)	1.75

Light Source Specification

CCT	4000K
CRI	81
