Twin Bar

Twin Bar 30W Ceiling luminaire with two parallel edge-lit LED panels

The Kosnic LED Twin Bar LG7 is based upon the standard twin bar panel but includes a moulded diffuser to spread some of the light sideways illuminating the ceiling surface while reducing the glare. The luminaire is an easy-to-retrofit replacement for in-lay ceiling tile fittings. The panels are supplied with flicker-free drivers for visually demanding non-transient task areas such as offices and educational premises where users require high quality lighting to maintain well-being.
